

Price Computing Scale

Model : TSDS781TSS

This IP68 water resistant stainless steel price computing scale, has a maximum capacity of 15kg with a minimum increment of 2g. It is easy to use and can be powered by mains power or dry cell batteries which provide more than 600 hours of continuous use. It is trade approved and well suited to many retail applications including Seafood, Butcheries, Delis and Market Stalls.

FEATURES

TSDS781TSS

- NMI approved for trade use
- stainless steel construction
- water resistant with IP68 rating
- easy to use price computing scale
- extremely portable, dry cell operation or mains powered
- extremely low power consumption with more than 600 hours continuous use from 4 x C size dry cell batteries
- fast weighing speed
- easy to read high contrast LCD display featuring additional TARE value window
- power adaptor included

SPECIFICATIONS

Capacity:	15 kg
Graduations:	2g/5g (0-6kg x 2g, 6-15kg x 5g)
Platform Size (mm):	290 (W) x 222 (D)
Product Dimensions (mm):	300 (W) x 340 (D) x 135 (H)
Units of Measure:	kg
NMI Trade Approved:	Yes
Customer Display Type:	High contrast LCD
Functions:	Re-zero, tare, low battery indicator
Functions Keys:	on/off, tare, re-zero
Interface:	power socket
IP Rating:	N/A
Operating Humidity:	15 - 85% relative humidity
Operating Temperature:	-10°C - +40°C
Operator Display Type:	high contrast LCD
PLUs:	99
Power Supply:	AC: adaptor (DC 5V-8V,100mA), DC: 4 x C size dry cell batteries
Battery Life:	more than 600 hours use
Preset Keys:	15
